

**TENSOR AB**  
TAILOR MADE HYDRAULIC SYSTEMS

# TENSOR HYDRAULIC PUMPS

## **TENSOR Hydraulic Pump System: Proven Swedish Engineering Tailored to Your Needs**

The TENSOR Hydraulic Pump System features a trusted Swedish design known for its reliability and performance. Our pump units are meticulously designed and customized for each project, ensuring optimal efficiency and effectiveness for your specific requirements.

**Experience the precision and adaptability of TENSOR hydraulic pump systems—your ideal solution for any application.**

## **Tensor Pump units are ready for Instant Use**

TENSOR Hydraulic Pump Systems are designed for immediate operation with a convenient plug-and-play feature—simply connect the power supply and get to work! Our pump units offer exceptional performance, with capacities reaching up to 4,700 bar (68,000 psi), ensuring you have the power you need for any application.

With a diverse range of pneumatic and electrical pump units, TENSOR is equipped to provide tailor-made solutions that meet the unique demands of our customers.

## **TENSOR Hydraulic Pump Systems:**

### **KEY FEATURES AND BENEFITS**

- \* Redundancy in three levels
- \* preset reach of pressure in less than 30 seconds
- \* Failsafe pump system
- \* Powerful custom design for your needs
- \* Easy to handle with a minimum of training

### **Pump Sizes:**

#### **Air Pumps**

LP1, From 1000-3000 bar

LP2, Both 700 and 3000 bar

#### **Electric pumps**

EP2, 1000-1500 bar

EP3, 1000-1500 bar

EP5, 1000-1500bar

**Others are built on demand to suit your requirement.
